

Our full range of facilities and resources includes ...

- Five well equipped training / meeting rooms each with built in projection and interactive whiteboards allowing laptop access and internet use
- A large ICT suite with hi-spec workstations all with internet facility
- A modern and spacious split-level engineering laboratory with an additional ICT suite specifically designed for engineering activity
- Laptops, large TV & DVD player available on request
- Excellent access for those with disabilities
- Access to convenient parking
- Catering and refreshments can be arranged to meet a wide range of needs

Training and Meeting Rooms

All of our main meeting rooms are located at ground level and can accommodate a variety of group sizes and layouts. The capacity ranges from 12 to up to 24 in boardroom/horseshoe layout and from 32 to up to 80 in theatre style.

ICT Suite

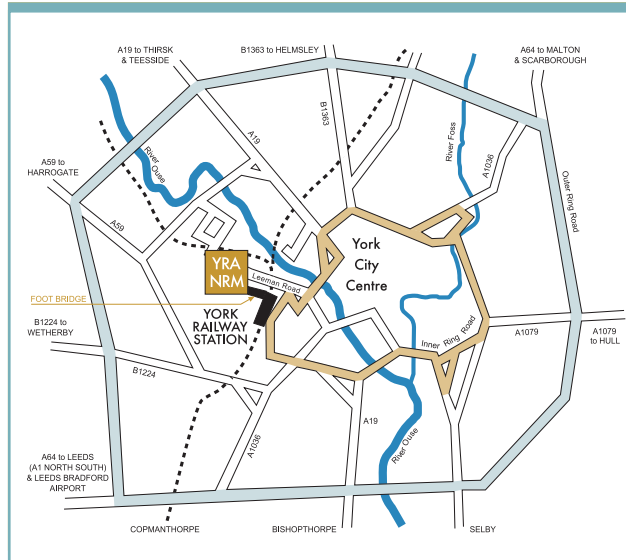

This spacious and airy facility houses 20 individual workstations and also has the advantage of having built in projection and interactive white boards for training or demonstration purposes. The workstations are well planned for comfort and accessibility, and all of our computer hardware has flat screens and a CD ROM facility.

Engineering Laboratory and Mezzanine

The engineering laboratory is well equipped with a range of tools and equipment and has 16 bench style workstations each with access to electrical and electronic testing equipment. The 16 networked computers on the laboratory Mezzanine floor have the benefit of engineering software, including CAD and rail engineering packages. You may wish to have the benefit of the full engineering suite or to have use of either the engineering laboratory or mezzanine ICT suite independently.
